NOYEL FEATURES AT THE SHOW

MANY NEW ELECTRICAL DEVICES EXHIBITED.

Makers Cater to Luxurious Taste of Pros-

Some of the women are captivated by the gaudily painted cars, but not all of them.

There are several cars in the show that so far as color work in the finishing goes are

simply freaks. Pausing in front of one of these that was painted a pale blue with silver

stripings and had cream-white seats on the inside, a woman said to her husband: "Charley, look at that bathtub!"

There have been several exhibitors added

to the show since it opened, the newcomers having single machines to show and crowding

into nooks and corners. Two new Dar-races from the St. Louis got in yesterday,

but the Clement machines and part of Four-

nier's lot are still missing. Those who have not yet received their machines from the St. Louis are talking of taking action for

damages. An American concern also is still waiting for machines delayed in transit

from its Ohio factory. By actual count there were in the Garden yesterday 242 complete vehicles on exhibition, not counting the Chassis exhibits. Of the 242 seven were

The advance in the electrical line is almost

as marked as the improvements in the con-

struction of gasolene motor cars. One con-cern shows twelve and another thirteen

electric models, to say nothing of half a dozen lesser exhibitors, and at both these spaces

novelties are to be seen. Electric broughams

are being made up in great variety and finthed with a luxuriousness that is astonish-ng. They are finished with rich upholstering,

ing. They are missed with rich upnoistering, silk curtains and electric light in the dome, a driver's signal, a card case, memo pad, mirror, toilet case, clock, silver scent bottles and an umbrella holder. Some are made to be operated from the inside and others from a driver's seat in front. St. Louis Are Still Missing-Gossip. At the shrine of the speedy motor cars that fill Madison Square Garden men and women of wealth and fashion continued to women of wearth and rashfor continued to worship all day yesterday and the night crush filled the aisies again. "Travel fast and trayel faster" would be a good beacon motto to hang out from Diana's tower during this week of the Automobile Show, for the one question being asked most often is: "How fast will it go?"

a driver's seat in front. An electric coupe with a rear boot for the driver or operator is also a novelty. A car which is run as an electric, from batteries that are being continually recharged by a two-cylinder gasolene motor of ten horse power, is attracting a great deal of attention and is proving to be a winner. This combination automobile is sold to run 125 miles on one charge. The model on exhibition is one that was bought by "Diamond Jim" Brady, and others have been sold to R. A. C. Smith and Charles E. Sherin. The car carries forty-four cells in its battery and its total weight is 3,700 pounds. It is started by pulling a switch. Besides in the cars themselves the electrical improvements are numerous. Apart from the Edison battery, which may or may not prove revolutionary, there are some striking improvements to be seen. Two brand-new sparking plugs, the "Bougie Herz," a German invention, and another shown at the stand of the imported Kelecom motors, are exhibited with the spark playing while the plug point is covered with oil.

The two most radically new things in the show are found in the restaurant side by side. One is a gasolene express wagon that carries two and a half tons and is run without gears, chains, sprocket wheels or belts. The power is transmitted directly from the engine to the rear axle by means of a reversible roller ratchet and removable crank pln. It is said that this new device has been tested for four years.

The second novelty is an engine composed. convention on Saturday, Feb. 28. This committee is composed of Gustavus T. Kirby, Columbia; E. K. Large, Princeton, and W. L. Clark, Harvard, and they have had no trouble in approving of the amendments.

It is said that this new device has been tested for four years.

The second novelty is an engine composed of five cylinders set tangent from the crank shaft, that passes between them, and are made to revolve about the crank shaft by the force of their own successive explosions. The sprocket wheel or driving shaft is fixed with the motor and the crank shaft is immovably fixed in sockets in the frame of the shaft.

Many sales are being made. Fournier shaft.

Many sales are being made. Fournier and W. K. Vanderbilt, Jr., had a long and earnest talk in one of the aisles yesterday afternoon, but no one learned what it was about. Fournier did most of the talking, and he seemed to be trying to convince the young millionaire of something. Says He Will Box McGovern in England

follows:

No one shall represent any college or university as a competitor at the Annual Field Meeting, who, since Feb. 28, 1898, has won first, second or third in any field or track event open to competitors from two or more organizations until he shall have resided one calendar year at the college or university he represents and shall have attained in the annual examinations on his work during that period a satisfactory standard of scholarship.

This section, however, shall not apply to events restricted exclusively to competitors from colleges or preparatory schools.

Section 7 of the same article is to come in Young Corbett has arrived in town from

for a little alteration, so that it will read as follows:

No one shall represent any college or university at Annual Field Meet who has been expelled, or resigned while not in good standing in one department, has transferred to another, or has not passed entrance examinations equivalent to those required for admission into the academic or scientific department until he has completed one calendar year's work, and shall have attained in the annual examinations upon his work given during that period a satisfactory standard of scholarship, or who has been permitted by his college or university to regain the class or department from which he was expelled, suspended or dropped or has transferred or resigned.

In Article XXVI, on the laws of athletics, concerning the shot-putting contest, it is proposed to make the length of the toeboard in front four feet instead of two. again, "said Corbett, but at the last moment us from meeting. I guess we'll have to bide our time, that's all."
"How about your proposed trip to England? Will you fight McGovern over there if they give you a purse?" was asked.
"Certainly," replied the champion without hesitation. "Why not? England is all right and there is no chance of the police stepping in at the last moment." and there is no chance of the police stepping in at the last moment.

There is a revival of talk about holding a contest between McGovern and Young Corbett in the East. But like all the other yarns to this effect, there is nothing likely to come of it. The latest is that the Scituate A. C. of Scituate, R. I., wants the tilt and is prepared to give \$10,000 for the mill. John R. Robinson, matchmaker of the club, who is in town, says that he can hold the fight without molestation and is willing to post \$5,000 as an assurance that he can he suggests the date as March 17 and the time during the afternoon. The club, which is a short ride from Providence, has been holding a number of scraps lately. But the tilts were of the kind not to attract more than passing attention.

Kniekerbocker Y. C. Annual Meeting. The annual meeting of the Knickerbocker Yacht Club will be held at the Hotel Manhattan this evening. After the meeting the members will dine together. The election of officers and committees will take place at the meeting. This is the only ticket nominated:

Joseph Cowan & Co.,

of Fort Erie is willing to give a purse of \$25,000 of Fort Erie is willing to give a purse of \$25,000 for the mill is not apparently alluring enough to the champion who has declined the offer with thanks. Jeffries's reasons for so doing seem to be plausible enough if what he says is true. Jeffries declares that his joint venture with Bob Fitzsiumons, in which both are appearing in the West on a knockout tour is successful beyond expectations and that he does not care to abandon it, at least for the present.

BOARDERS WANTED.

he does not care to abandon it, at least for the present.

"I can see no reason why I should do battle with Corbett again," said the champion in Leadville, Col., yesterday, "and doubt very much if the public expect it of me. I am meeting with tremendous success touring the country with Bob Fitzsimmons and can make as much money on the road as I could in purse money with Corbett in the same length of time as it would require for training. Corbett has been defeated by every one he met except McCoy since he lost the championship to Fitz." 31ST ST., 17 EAST—Large, small rooms; single; en suite; parlor floor; with board; also table boarders; references.

NEW. I. C. A. A. A. A. RULES.

Which Schick Was Disqualified. The executive committee of the Intercollegiate Association of Amateur Athletes of America have forwarded to each university a copy of the proposed amendments to the constitution to be acted upon at the annual

in approving of the amendments.

The first and most important touches upon Article XVII., section 5 of the constitution, under which Schick of Harvard was protested last year. The point raised by Harvard was that the meetings at which Schick was supposed to have competed were closed ones, the old rule stipulating "any open meeting." The proposed alteration, however, mentions a meeting at which two or more organizations contest, thus making the rule more specific. If passed it will read as follows:

Section 7 of the same article is to come in for a little alteration, so that it will read as follows:
